

With this work, amongst the goals of our project are the formation of a Rail Systems Passenger Services programme within the structure of the Anadolu University Transportation Vocational High School in order to enhance the quality of administration of our country's rail system, with new methods, to improve passenger services, enable competition and speed up harmonisation with EU standards and determine joint standards with EU countries. Additionally it is a goal of our project to prepare training modules and for our institutions to gain an international dimension.

The project will be carried out jointly by the Eurocert-DE, Ceipes-IT, UK-Certified Knowledge Association, İlksem Mühendislik and TCDD Taşımacılık A.Ş under the coordination of the Anadolu University Transportation Vocational High School and will last for 36 months between 2017 and 2020. We attach great importance to this project on account of the sound vision and road map it provides for passenger services in the rail systems field in EU countries.

This project is executed with 1981 UK Professional Body **UK Certified Knowledge Association (UK-CKA)**.

## **UK- Certified Knowledge Association**

UK-CKA is an Exceptional British International Professional Body, previously known as the Corporation of Executives and Administrators, which was Incorporated in the Year of 1981 with the vision and mission of offering Internationally Endorsed & Accepted UK Professional Knowledge Certificates, Diplomas and Distinguished Memberships to boost an individual's Professional Image under the categories of :-

- 85410 Post-Secondary Non-Tertiary Education
- 85422 Post-Graduate Level Higher Education
- 85590 Other Education N.E.C.

## PRESS RELEASE

Our project, **Development of Education Moduls for Railway Passenger Service Systems** (TCDD Demiryolu Yolcu Servis Sistemlerinde Eğitim Modüllerinin Geliştirilmesi ) which is funded by The European Commission and Ministry of European Union (EU) Affairs, within the scope of the Erasmus+ Professional training joint strategy programme, conducted in partnership with our organisation “Ulusal Ajans” ([www.ua.gov.tr](http://www.ua.gov.tr)) in accordance with agreement no. 2017-1-TR01-KA202-046496, has been granted funding.

This project aims to develop the skills and knowledge of those working in EU countries in the rail systems sector, in such fields as passenger services, information, passenger security, catering services, transfer of passengers and luggage, station and in-carriage direction and emergencies. The goals of our project are to increase skills with our partners in EU countries within the European Qualifications Framework, to establish joint professional standards in this field, to launch cooperation between EU countries and the Railways Directorate in our country, to develop innovative training modules for use throughout Europe and to carry out pilot schemes directed at target groups and to generalise the outcomes of the project in Europe and in our country. We can list our activities as determining professional standards in the rail systems in EU countries, the preparation of training modules, strengthening cooperation, knowledge and experience between organisations in the rail systems sector in EU countries, and the development of joint professional training and certification in EU countries.
